

Portrait Print Price

Our portrait pricing is very simple, straight forward, and up-front. We charge a sitting fee which is currently 1/2 price at £25 for the studio, or £75 at home or outdoor location.

You are free to choose anything from our product range, from simple mounted prints ready to frame, to one of the exclusive designer products that will make a great addition to any home.

This portrait print price list details our most popular options but cannot include everything, We have a great range of products with multi - print options in mounts, frames, and perspex blocks (a price list is also available for these). Our frame choice includes a deluxe range of beautiful frames. Most of these products have to be seen to be appreciated, and most orders for larger prints are made at our premises where a full range of samples are available to view.

Although we prefer you to view the products, we also have a policy of being "up-front" with all our prices so that before you have a sitting, you know what is available and the costs involved.
