aberdeenphoto.com

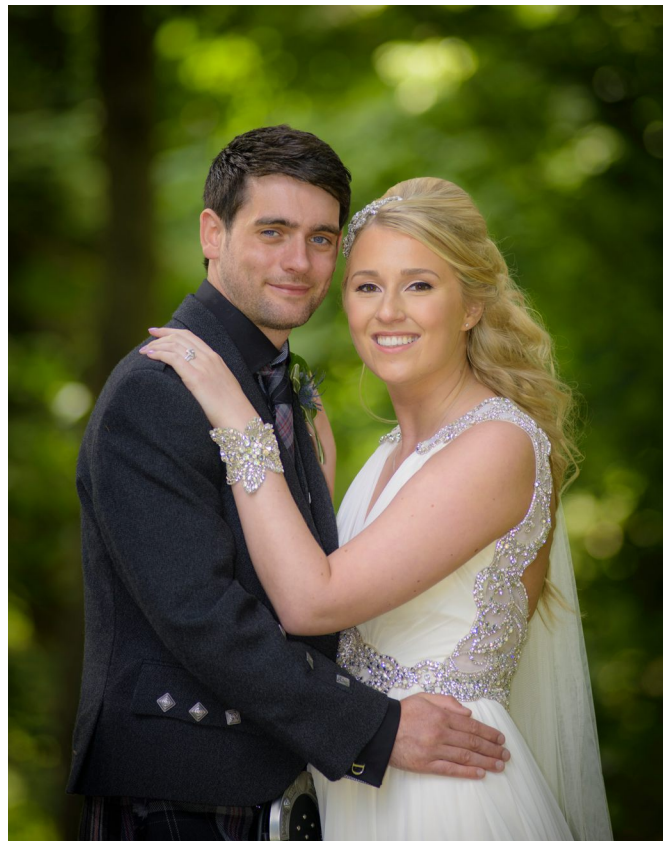

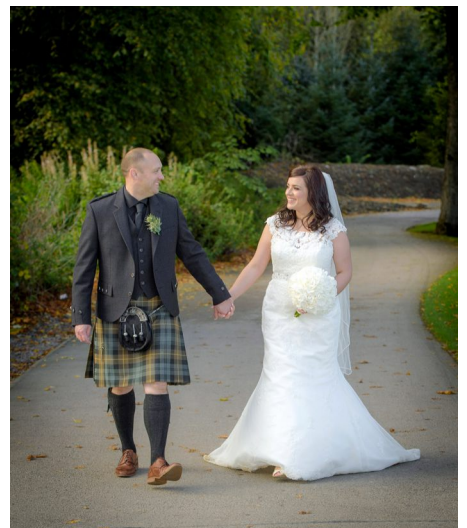

Photography is one of the most important elements of your wedding day. The day that you may have spent months or even years planning passes all too quickly and your photographs are your way of re-living that day. It is vital that you choose a photographer that has the experience and creativity to produce something special without taking over your day.

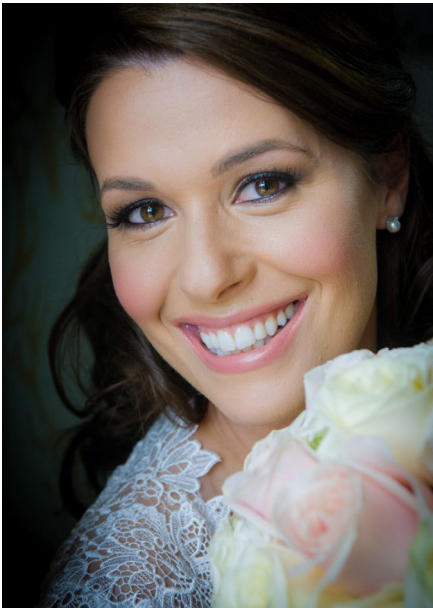

It is also important that we listen and capture your special day in the way that you want. Our photography and custom designed books are tailored to your specific requirements. Our aim is to create a unique record of your wedding day with a set of stunning images, presented in the most creative style with a quality that will last a lifetime.

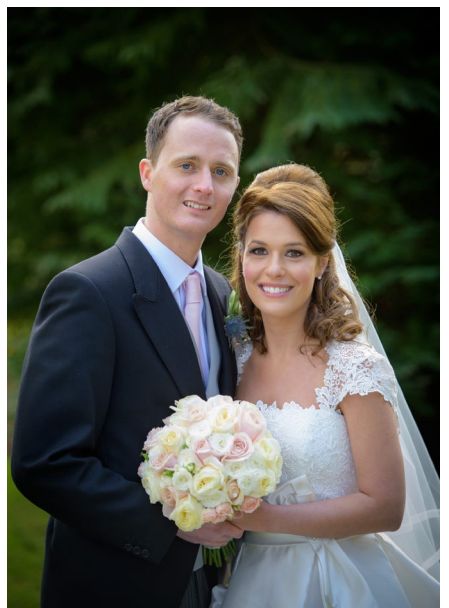

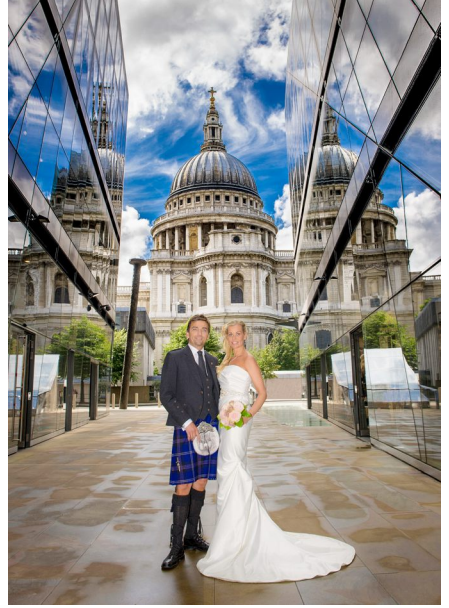

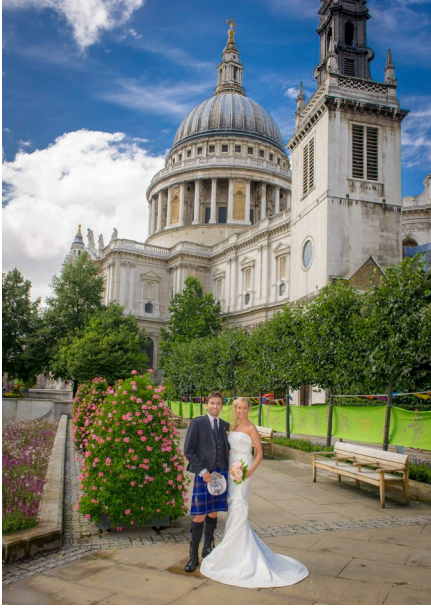

Caroline and Nick at Fasque

Our approach

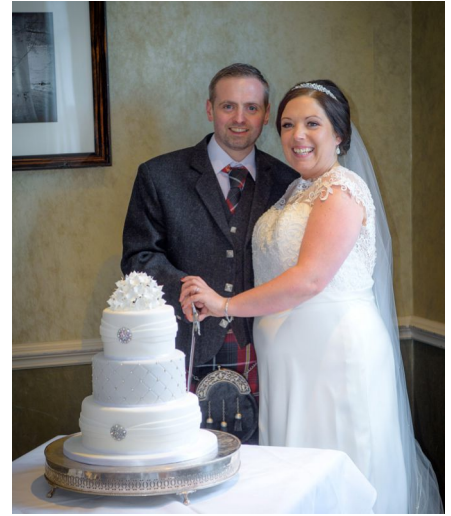

Our approach comes from years of experience and knowing how to get the best out of every couple on their wedding day. We love working with people, places and details.

From your initial meeting with us, right through to presenting you with your album or digital files, we strike the right balance – I listen, advise, and use our expertise and experience to create the results you want, without ever taking over. The day is yours and as a photographer we are simply there to capture it and show you at your very best.

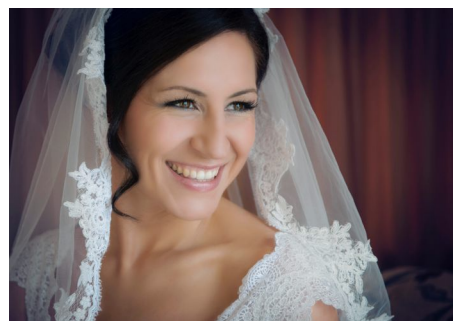

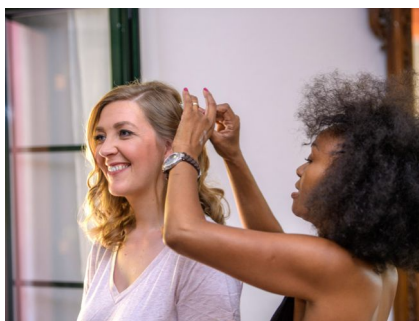

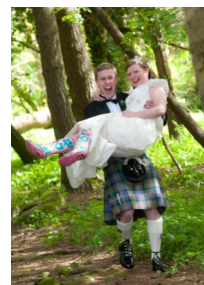

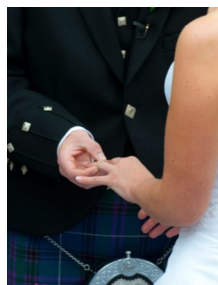

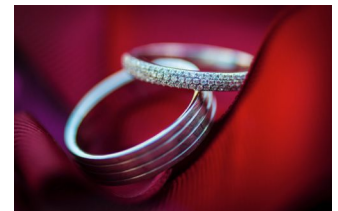

Pricing

We like to keep it simple, so it's enjoyable and not just another tick on your list. We love to tell you what we're good at, who we are and what you can expect. We won't try to be all things to all people because photography style and the photographer you work with is a very personal choice.

Our style is to combine reportage shots with some more traditional portrait posed ones, to ensure we cover all aspects of the day, and make sure you don't have a, "I wish we'd had this shot" moment in years to come.

Pricing and packages

Our pricing is simpler than ever. We want it to be easy for you to see how we can fit into your budget and what you get. And to make life even easier we also don't ask you to make decisions (or payment) on how you would like your photos displayed (as files, in a book, prints, canvases, etc) until you've seen the images. If, however you know beforehand that you would like a book, an inclusive package price can be agreed.

Standard package – £750

This includes all the classic moments of the day:

- Best man and groom arriving
- All the guests arriving
- The service
- Family groups
- Bridal groups
- Bridal portraits
- Mock cake cutting

You can also choose to extend how long I'm with you on the day to capture even more of your wedding.

Bridal preparation - £200

For some brides, this is a key part of the day that is a must to be captured and remembered.

The special time you spend with your parents, siblings, bridesmaids laughing and getting ready – the anticipation of the day ahead and the special moment of stepping into your dress and finally leaving for the wedding.

Drinks reception and speeches - £200

The drinks reception is a great time to photograph your friends and family enjoying the wedding, before they make their way to their table where more great informal images can be captured. Photography during the speeches is also a fantastic time to capture your guests laughing (and sometimes crying) while they are less aware of the camera.

Evening Reception and Dancing - £350

The room is transformed and as the evening guests start to arrive we capture them greeting you both. We then of course photograph the iconic first dance (and grand march if you are having this). We will then stay to get the first few dances, capturing the atmosphere of the reception.

All day package: If you choose to have all the the options then the total is reduced from **£1500 to £1350**

"Just a quick email to say that our wedding album is just perfect. We have had so many compliments about our pictures and we will highly recommend aberdeenphoto. Thank you to both you and Sandra for all your help especially during these strange times."

Wedding album of Vicky & Lee, 13th June 2021

"As someone who does not enjoy having her photo taken I can honestly say I was petrified about hiring a wedding photographer. However Neil could not have been a better choice, not only did he listen to my concerns but after our beautiful photos from our engagement shoot he really put my mind at rest. Neil has the perfect balance of professionalism and being genuinely friendly. He took on board all of my anxieties and was patient and understanding.... He was extremely organised which made our photos flow well. My guests commented on their delight at having their photos taken upon arrival and my dad was grateful Neil was great at accommodating a last minute request to assist with a video surprise. Our photos turned out beautifully and unlike other photographers Neil was super prompt with our previews and the quality of the photos made choosing our selection extremely difficult...."
