

## ***A beautiful comprehensive record of your special day***

This is our most popular service and offers a very innovative and creative approach to wedding photography. Two photographers ensure that all aspects of your day are captured - from getting ready at home (or hotel) through to your speeches or dancing. The combination of family groups, bridal portraits, and an extensive number of "candid" photographs can easily result in a choice of 400 -1000 images, allowing you to pick only the best images either as prints, or for your specially created individual album. Any of the images can be colour, black and white, sepia, or other special effects.

The images chosen can be supplied as prints or presented as creative page layouts custom designed to your requirements. The complete album is previewed (on line and then on our cinema display screens) and at this stage we can make changes prior to printing in one of many different book styles.

If you choose a book presentation, combining a large number of images, our creativity, and your input ensures a very stunning and personal record of your big day.
